

# Droplet v2 by Sinevibes

AAX + AU + VST effect plugin for Mac/Windows/Linux

## Version 2.0.4

- Added VST3 version for Linux
- Added a workaround for an audio framework bug in macOS 10.9-10.12
- Updated AAX framework
- Built against a newer JUCE 7 framework

## Version 2.0.3

- Added AAX and VST3 versions for Windows
- Added shortcut button to show the "open file" dialog with the list of preset banks
- Added ability to reduce the window size down to 80%
- Improved DSP engine initialization scheme to eliminate extra computational load during the start of processing
- Fixed an issue that in very rare cases could cause the preset name and the toggle buttons to abruptly lose their correct styling
- Fixed permissions issue in the package installer that could in very rare cases cause the presets to not be readable by the plugin

## Version 2.0.2

- Added support for tail time property

## Version 2.0.1

- Revised feedback parameter mapping for a more natural response
- Reworked factory presets to reflect the new feedback parameter mapping
- Added all-new factory presets
- Minor design enhancements for knobs and text labels
- Stereo pan randomization is now disabled in mono>mono channel configuration
- Improved behavior when receiving the reset() call from the host
- Minor processing efficiency enhancements
- Fixed send parameter control actually not controlling the send level
- Fixed incorrect operation in mono>stereo channel configuration
- Added a workaround for a UI size bug in macOS Big Sur
